

Space-Saving And User-Friendly Reverse Vending System With High-Capacity 360° Recognition

The Revendo 9030 continues RE DEPOSIT's tradition of delivering innovative, user-friendly reverse vending solutions. Thanks to its high-capacity recognition and compacting technology in a robust and space-saving housing, the Revendo 9030 is a cost-effective, efficient and economic solution.

Efficiency by Design

Based on the successful Revendo 9010 and the innovative 360° EasyClean input unit, we designed a powerful and space-saving reverse vending systems all within a two Euro pallet footprint. With its uninterruptible recognition system and high-capacity compactor, the Revendo 9030 delivers an innovative, non-stop reverse vending solution. The newly developed EasyClean technology and accessibility of components minimizes cleaning time.

Drive sales and optimize store processes

With a comprehensive range of software applications like tailored couponing, loyalty card rewards or advertising, retailers can drive same day sales at reverse vending machines. Secure communication at every in-store point-of-sale system enables a seamless consumer journey. Backed by years of experience in the retail market, we offer our customers a wide range of software solutions to simplify processes and help them become more efficient.

Protect the Environment

Revendo 9030 solutions help retailers drive the commercial benefits of reverse vending while, according to a recent scientific study, protecting the environment. To learn more, contact your RE DEPOSIT representative today, or visit: re-deposit.com.

R9030

Features

- Full graphic 8.4" touch display
- High-quality user interface with a new design
- Interactive user guide
- Help texts for simple troubleshooting
- Thermal printer
 - Paper width: 60 mm
 - Paper length: 500 m
- Manipulation protection system
- Full bottle recognition
- LAN for online connection

Recognition Data

- 360° barcode/logo recognition
- Shape and color recognition
- Processing speed: up to 60 bottles/minute
- Data capacity: almost unlimited

Benefits At-A-Glance

- Maximizes selling space with a compact, two Euro pallet footprint
- Optimized for retailers with a floor space of 100-400m²
- Complete integration with every in-store point-of-sale system enabling retailers to offer a seamless customer journey
- Reduces power requirements with an energy-efficient LED lighting of the recognition unit
- A 360° recognition ensures a seamless process
- Assures customer adoption via an intuitive user interface
- EasyClean technology reduces cleaning and increases system availability and stability

System-Options

Case

- Grey aluminum RAL 9007
- Anthracite grey RAL 7016

Other

- Reader for safety features of one-way deposit
- Interface for customer communication with either a barcode reader or NFC interface

Conformity

- Machine directive, EMV, CE

Power Supply

- 3–400V/50Hz

Temperature Range

- +10°C to +40°C

Swap-Service

RE DEPOSIT's service organization ensures high availability of all Revendo systems.

Experienced field service engineers that can directly access OEM spare parts enable fast system recovery, according to the agreed contractual details.

Dimensions

Height: 1.720 mm (67.72 inches)	Width: 1.820 mm (71.65 inches)
Depth: 1.380 mm (54.33 inches)	Weight: 550 kg (1,213 lbs)

Further Equipment

- Collecting container
- Foil bags for collection containers
- Receipt roll
- Cleaning products, e.g.
 - ActiveClean
 - CleanFlush
